About SVEPL:

We , S.V.E. Engineers P Ltd (Since 1996) are specialized in designing, manufacturing and supply of Material Handling Systems meant for Sugar, Power, Cement, Coal, Tyre, Steel, Mining & Crushing Plants, Bio Mass Captive Power Plants, etc,. We also undertake erection and commissioning works around the globe

Material Handling Systems are often subjected to modifications / upgradation due to expansion activities or changes in business plans to cope up with demand / supply fluctuations and diversified products' requirements . Under such scenario, rather than scrapping the existing system, it would be prudent to just go for a viable alternative solution that shall protect the investment made of the existing system to the maximum extent possible. Here we pitch in to offer you a practical and at the same time a very economical solution using our latest state of the art technologies and design.

Our technical team of expertise is well supported by the latest state of the art technologies and design. We have strong tie up with established suppliers for critical equipments like crusher, screen, Vibrating Feeder, Magnetic Separator, Dust Suppression and Extraction Systems, Ash Conditioners,etc., to provide quality components besides offering very attractive and packaged solution customized to customers' requirements. Besides turnkey projects, we can also design and supply single conveyors , Bag stackers, Lorry Loaders, unpowered and power roller conveyors, turntable, Unit Handling for sugar bags, food grains and cement bags , customized to specific requirements including revamping of existing conveyors along with supply of replacement spares for worn-out components.

We stand committed to honor our business obligations through the best quality and service.

We are pleased to place it on record that we are in the approved list of vendors for many established industries and consultants as listed in this brochure and inclusion of your esteemed company as our client will bring in lot of value to us.

Vision:

Establishing ourselves as the most trusted and preferred vendor for all material handling system and storage requirements and satisfy our customers in more meaningful ways by providing high value products at moderate cost .

Mission: *Providing customized solutions through innovative design and cost effective solution.*

Trust:

We trust that our vision and mission coupled with our commitment to provide quality products will strengthen our relationship further for mutual benefits.
